Next

- 1
- They can sort the recipes as well based on Time to cook or level of expertise
- 2
- They can search either by recipe name or other keywords
- 3
- Example of the drop down menu if the user hover over recipes
- 4
- The user can filter the recipes using the left filter table, checking all that apply
- 5
- Breadcrumbs to aid with the orientation & navigation
- 6
- Clicking on show more, takes the user to the single page recipe
- 7
- Pagination, instead of infinite scrolling, as I want users to have more control over their navigation
